TECHNICAL SKILLS

- **Languages:** Java, JavaScript, HTML/CSS, C, Node.js
- **Developer tools:** VS code, Eclipse, gitHub

EDUCATION

York University   **Expected Graduation, May 2027**
BSc. in Computer Science | GPA: 6.8/9.0   *North York, Toronto*

- **Related Coursework**: Object-Oriented Programming (Java), Computing in Java, , Software Development in Javascript, Discrete Mathematics

PROJECTS

YourFlights   **Summer 2024**
Full-Stack Developer   *North York, Toronto*

- Developed a flight search platform using a Google Flights API, enabling users to search and view flights and their prices from various airlines.
- Created a back-end server using Node.js to retrieve data from the API.
- Designed and implemented the front end using HTML, CSS, and JavaScript.
- **Tools used:** JavaScript, Node.js, CSS, HTML

StudyQuiz   **Fall 2023**
Team Leader & Full-stack developer   *North York, Toronto*

- Led and collaborated with a team of 3 first year computer science students in the development of the project from conceptualization to deployment.
- Implemented features like saving progress and displaying scores in collaboration with the team.
- Integrated unit testing using Javascript tools.
- Conducted user testing and gathered feedback to iterate and improve the application's usability and performance.
- **Tools used:** JavaScript, CSS, HTML

CERTIFICATIONS

CS50x - *Introduction to computer science*   **Summer 2023**
Harvard University   *Online*

- **Relevant skills**: Algorithms in C, Abstraction, Web Development
